DETAILED ACTION

Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Gerwin and Uchimoto et al.

Both of the references to Gerwin and Uchimoto et al disclose a rivet structure made of a refined alloy as claimed. Both references also disclose structure that includes a rivet with a head and a shank wherein the shank is designed to be deformed or upset to form a second head.
